

NAVIGATOR YACHT GROUP

My first encounter with Francois Perus of YDC dates back to the Slyder 47 in 2014 and have been a promoter and involved with a few YDC designs ever since.

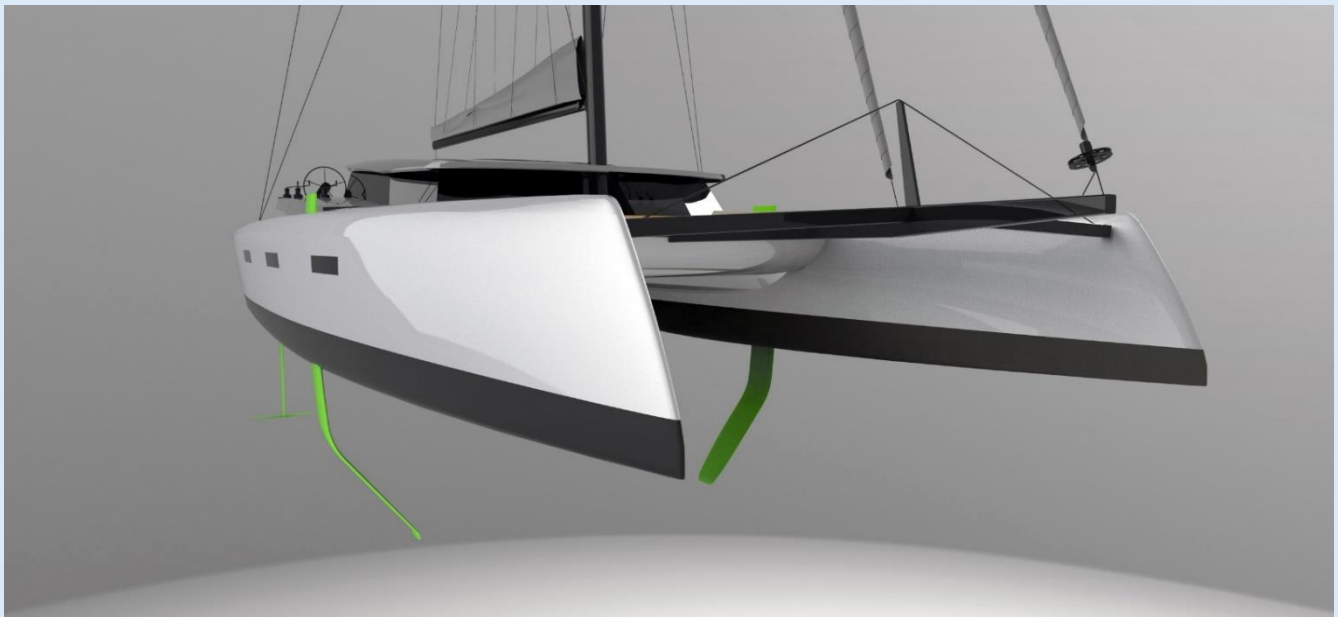

YDC signature hull shape consists of a planning hull, which is a departure from the U-shaped semi-displacement multihulls, along with appropriate payload capacity to compensate for the creature comforts and cruising gear, plus wave-piercing bows, minimal hull rocker, and daggerboards.

Below is a selection of YDC projects one can imagine

YACHT DESIGN COLLECTIVE
